## VIII. Future Plans:

- Planning for a farewell party for Sean.
- Yet will graduate from her university this year and she also has a good job now. So we will do the paper to integrate her. But in case she wants to continue staying with us, we will consider letting her to stay for six more months.
- Chinh will start studying medical course next year.
- Continue the MOU.
- 

## **IX.General:**

- This year there have been a lot of things happened at KH. We have five kids integrated back to their family and we also received 1 more kid to live in the orphanage. Next year we plan to integrate 1 more kid who has almost graduated from the university and also has a good job now. Moreover we had Chinh moving to study the medical course in PP, which is a great opportunity for him.
- Moreover, all the staff had training about the first aid course. We also had a wonderful trip at Batom Bang province with all the kids and house mothers during the holiday, which we cannot forget.
- Especially, we have installed five water tanks and the pipe system, and put small stones on the pathway. For all of these, we need to thank our supporters, the Rotary Club of Balwyn, and the Chris family.
- For charity work, we have donated some money, rice, blankets, bicycles, and school facilities to the poor families in the village and also the school. They were very delighted and thanked us for all these donations. Especially, we have a very good relationship with the ministry of social affair, school and the officers in the village, this is really helpful for us as they can help us at any time we need assistance from them.
- More importantly, we would like to send our profound thanks and loves to Sean who has been helping us for two and a half years, since our kids had very little knowledge of English until they are able to communicate, and write well now. We have seen his extreme hard work and generosity for all the kids, which we hope he can stay with us longer than this. Hopefully, he can come back again to be a part of Kampuchea House again.
- Also, we would like to say thank you to Belinda, Vice President of KH, she has always come to help me with the visitors, solving the problem, raising the new ideas and she always understands about the kids and staff here.
- Finally, in the name of children and staff of Kampuchea House, I would like to say thank you to all the committee members and benefactors for all their hard work to keep Kampuchea House runs as today and in the future. We wish you all the best.

Please consider and acknowledge as the information.

Sincerely Yours,

Sour Sokleng, the Director.
